Personal profile

I'm a Front-End developer with 5+ years of experience. I create, develop and maintain websites from plain markups to high-loaded, scalable and performant SPA. I'm responsible, reliable, flexible and well-organized. I work well with others and I value and respect time constraints and deadlines.
I am also great with clients: when a client has a question, I take the time to explain and clarify our process to them in an appropriate way.

Professional experience

Front-End Developer @EastWood, Penza, Russia
